Priced within the reach of all.

Special price in quantities.

TRIBBLE'S MOTHER'S APPLE

This is a chance seedling discovered by our mother Mrs. M. E. Tribble and has the best keeping qualities of any apple known; keeping from one season until the next without decaying. Tree vigorous and quite free from blight. Fruit very large, good bearer, excellent flavor and of excellent quality. A splendid apple for both cooking purposes and to eat from the hand. Price \$1.00 each.

WILSON'S LATE JUNE

This is one of the most beautiful and highly colored apples grown. Size very large, good keeper and an apple of exceptional market qualities, bears well and of good quality. Price \$1.00 each.

APRICOTS

Miner's Apricot—Tree very large and vigorous and an abundant bearer. Fruit very large and of excellent flavor. Price \$1.00 each.

Grace Apricot—Tree very vigorous and bears well; fruit exceptionally large, free stone, and the most delicious of all apricots, and the most highly colored apricot grown, being nearly red in color, ripens a little later than Royal. Price \$1.00 each.

CHERRIES

Early Chinese—Pink in color, very productive, not subject to gum disease. Earliest of all cherries; ripens about three weeks earlier than E. P. Guigne or Chapman. Price \$1.00 each.

Emperor Francis — Very large, highly colored cherry of the Royal Anne type of exceptionally good quality and excellent bearing quality. Season same as Royal Anne. Price \$1.00 each.

Mineken—A very large cherry ripening in July. Tree very large and prolific, fruit rather tart and of excellent quality; one of the best of all canning and preserving cherries. Price \$1.00 each.

PLUM COTS

Stanford Plumcot—A true hybrid of the plum and apricot by R. E. Burton of Vacaville, Calif. Fruit beautiful yellow apricot shape; good size; fine flavor, and one of the best plumcots grown. Price \$1.00 each.

Smith Plumcot—Another Vacaville production of true merit by W. W. Smith. Fruit very large and of good quality; beautiful color and good flavor. Price \$1.00 each.

Sharpe Plumcot—A large oval shaped fruit of excellent flavor and beautiful coloring; juicy, rich and a partial freestone. Season July 10th. Price \$1.00 each.

PEACHES

(Clings)

Carpenter—A white Clingstone with a red blush; very prolific and of excellent flavor; one of the best White Clings for home use. Price \$1.00 each.

Texan Cling—An extra fine White Cling; very large and prolific; one of the most beautifully colored Clings grown; an excellent market and home peach. Season of Elberta. Price \$1.00 each.

FREESTONES

Pallas—This is one of the Honey peaches but much larger than this group and is one of the sweetest peaches known; very prolific and of an excellent flavor. Season August. Price \$1.00 each.

Perigrene—This is a large beautifully colored freestone of excellent quality and flavor; bears abundantly when quite young; an excellent peach for the home orchard. Price \$1.00 each.

Mother's Peach—This is one of our own originations and is one of the finest of all freestones, with Tribble's Pride are unlike any other variety and is exceeded in beauty of coloring only by the latter variety. Tree very large and wonderfully productive; fruit very sweet and of a most delicious flavor. Eagerly sought by local trade and fruit venders. Price \$1.25 each.

Tribble's Pride—This is one of our own originations; is a seedling of Mother's Peach; has all the good qualities of that variety; ripening earlier; very large, beautiful peach; round, very firm, very sweet and most deliciously flavored of all peaches. It's brilliant red coloring makes it easily discernible across an entire orchard of trees and has caused more favorable comment and attention than any peach known. Price \$1.50 each.

NECTARINES

Quetta—Introduced from Quetta, British India. Largest of all nectarines; very heavy bearer; beautiful color, with rare rich flavor. Season August. Price \$1.00 each.

PLUMS

Amador—Seedling of Climax but larger and ripens later than that variety; not inclined to deformed specimens like Climax; skin red, yellow flesh, sweet and good flavor. Cling. Price \$1.00 each.

Emilee Prune—An extremely large prune of the Sugar Prune type but deeper color and much larger; packing 4x4; very prolific and dries well. Freestone, yellow flesh and purple skin; sugar content very high. Ripens August 10. Price \$1.25 each.

Methley—(Blood Plum) We are proud to offer this new introduction from South Africa; deep red plum, heart shaped, very largest size, deliciously sweet, firm and very productive; will sell well; ripening the last of May. Price \$1.00 each.

Kaga—One of Prof. Hansen's Hybrids and the most delicately flavored of all plums; medium size; abundant bearer, and the most delicious of all plums. Price \$1.00 each.

Sharkey—Seedling of the Burbank but much larger and later; cling; yellow flesh, red skin, quality very good; tree very prolific; season follows Burbank. Price \$1.00 each.

Becky Smith—One of the most beautiful plums known to Pomology; very largest size; pit very small; freestone, yellow flesh, red skin and shape round; season August 20th. Price \$1.00 each.

PEARS

Dr. Jules Guyot—Resembles Bartlett in shape and color; season a little ahead of Bartlett; of better color than the Bartlett and a valuable pear owing to its earliness. Price \$1.00 each.

Passe Crassane—From Rouen, France; fruit medium to large; dull green with Russet markings; flesh white, fine melting, very juicy, of fine flavor. Price \$1.00 each.

Test Pear—(Luther Burbank's) A large pear, 4 inches long by two and one-half inches across; form of Bartlett; quality of Le Conte but far better and much more prolific than either Bartlett or Le Conte. Price \$1.00 each.
